The Largest Shipping Company in Canada is Also the Fastest to Canada

Although the U.S./Canada border is the largest in the world, getting shipments through is no easy task. As the largest delivery company in Canada, we are also the fastest to Canada. Even though most companies and citizens live within 100 miles of the border, proximity doesn't mean speed. Experience and logistics do.

At Purolator, we have an understanding of the ever-changing customs regulations that's second to none. And it allows us to avoid unforeseen delays. We have a proven history of minimizing the complexities of regulatory compliance.

While there have been many changes with utility services on Long Island recently, one thing remains the same: National Grid is your gas company.

And we are building upon our commitment here. Over the next five years we will invest more than one billion dollars in our natural gas network, and we plan to provide new gas service to nearly 50,000 homes and businesses.

We are proud to be Long Island's gas company, and we look forward to an exciting future here.

Local businesses work hard for our economy. It's time we do the same for them.

At UnitedHealthcare, we've created a full range of plans that offer businesses and their employees more choice and value, and help them make more-informed decisions that may put the brakes on rising costs. And that shifts businesses into higher gear.

We're also proud to support the organizations that make a difference to businesses, like the **Long Island Association**.
